EXPERIENCE

Web Developer Intern

International Academy Manila

February 2026 - April 2026

- Developed a school portal focusing on frontend development and UI/UX design, utilizing Figma to create user-friendly and visually appealing interfaces.
- Improved user experience and engagement by enhancing interface usability and streamlining navigation for students and staff.

PROJECTS

School Portal Development – International Academy Manila

- Built the school portal frontend with React.js, HTML, and CSS; collaborated on Figma designs, ensured mobile responsiveness, and handled version control with Git. Implemented backend functionality using PHP and PostgreSQL
- Enhanced usability and accessibility of the portal, improving the experience for students and staff across devices while maintaining code quality and design consistency.

Trinity University of Asia Marketplace

- Designed and developed the frontend using React.js, HTML, and CSS; collaborated on UI/UX with Figma and integrated Firebase for real-time communication and authentication.
- Improved user engagement and interaction by enabling instant messaging and seamless browsing, enhancing the overall marketplace experience for students and vendors.

Web-Based Garbage Truck Tracking System

- Developed a real-time tracking system using React.js and PHP, integrating OpenStreetMap API and React Leaflet for live garbage truck locations.
- Enhanced community waste management by enabling users to monitor garbage trucks within their area, improving efficiency and transparency.

TUA Feedback Hub Website

- Developed the TUA Feedback Hub Website using HTML, CSS, PHP, and MySQL as a web-based student and professor evaluation system.
- Streamlined the feedback and evaluation process through a centralized and user-friendly platform.

TECHNICAL SKILLS

- Programming & Markup: HTML, CSS, JavaScript, PHP | Frameworks/Libraries: React.js | Databases: MySQL, PostgreSQL, Firebase Realtime Database | Cloud & Hosting: Firebase Hosting, Firebase Authentication | Design Tools: Figma, Canva | Version Control: Git, GitHub

EDUCATION

BSIT-Software Engineering Trinity University of Asia, Quezon City

2022- 2026

- Dean's Lister
- Pasig City Scholar
- Magna Cum Laude
